1. Expand the filter scope from Sheet level to Workbook level

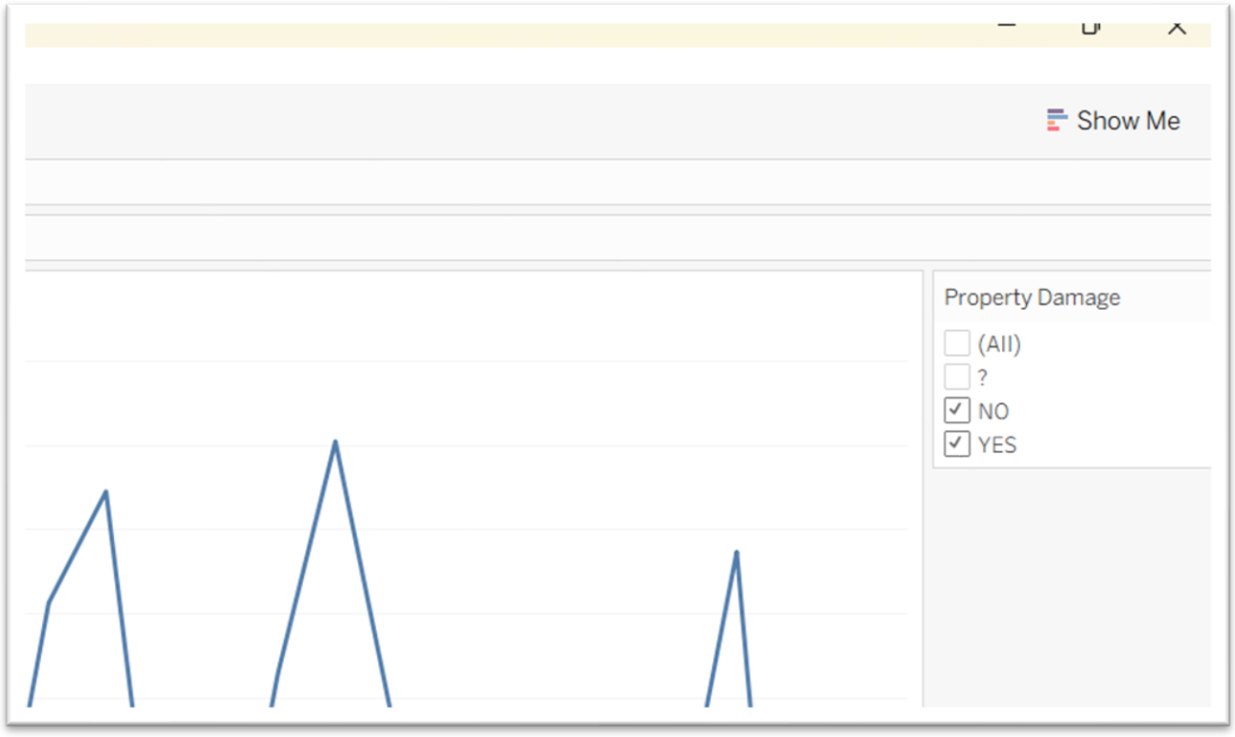

This makes the same filter apply across multiple worksheets instead of just one.

---

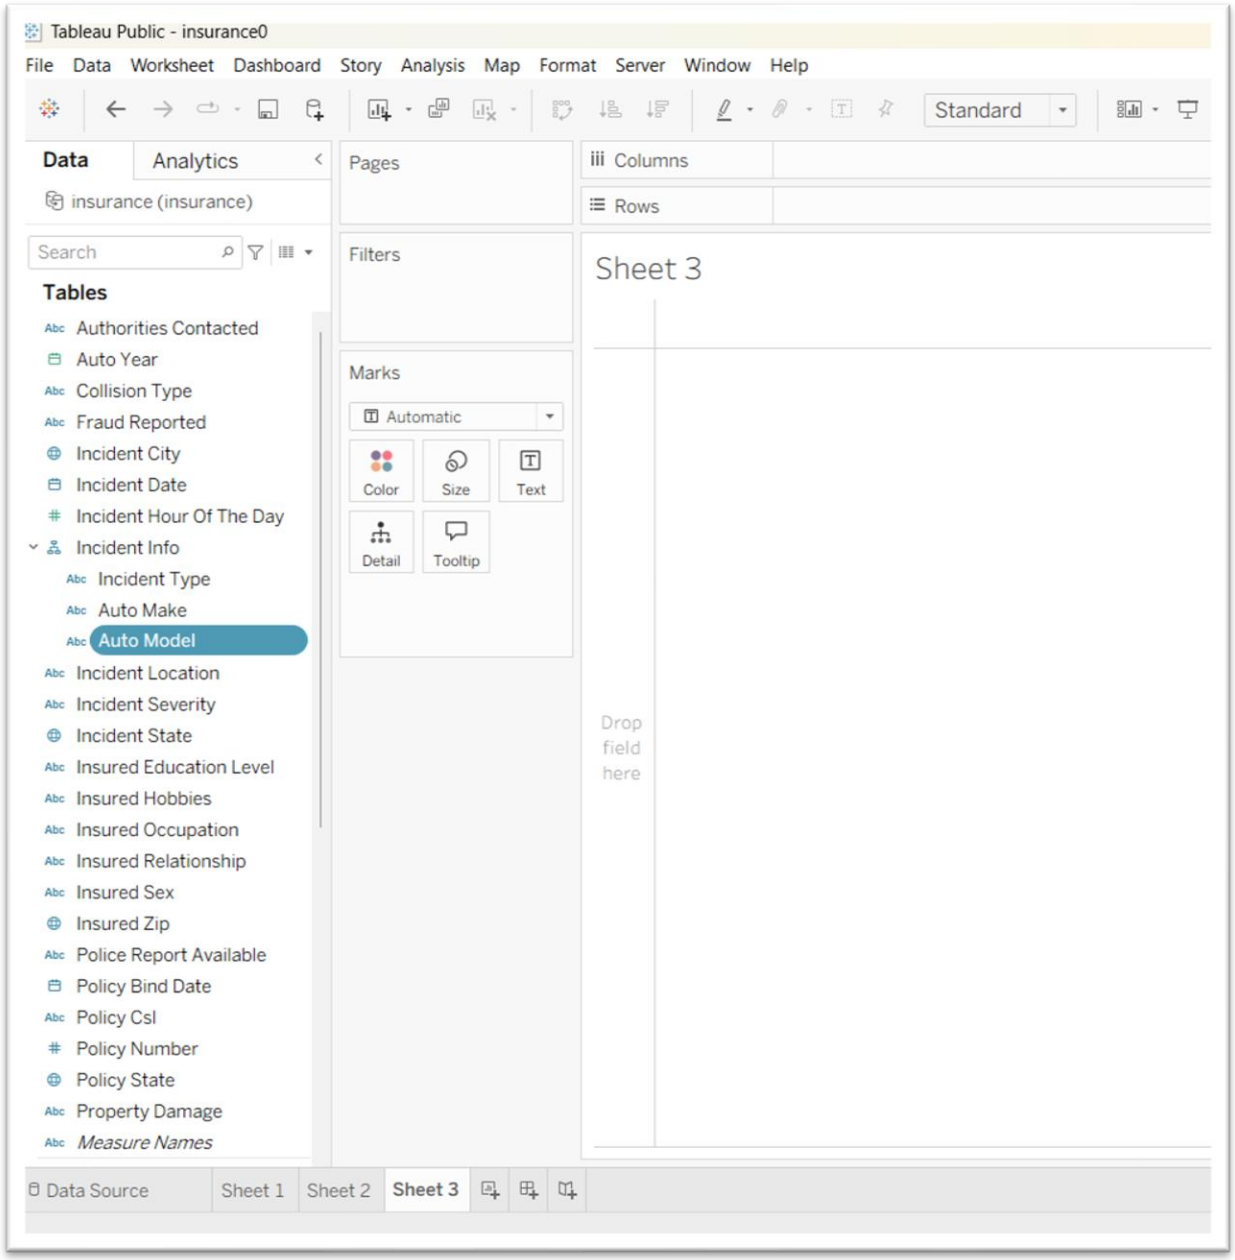

2. Remove ? from the Property Damage column using a Dimension Filter.

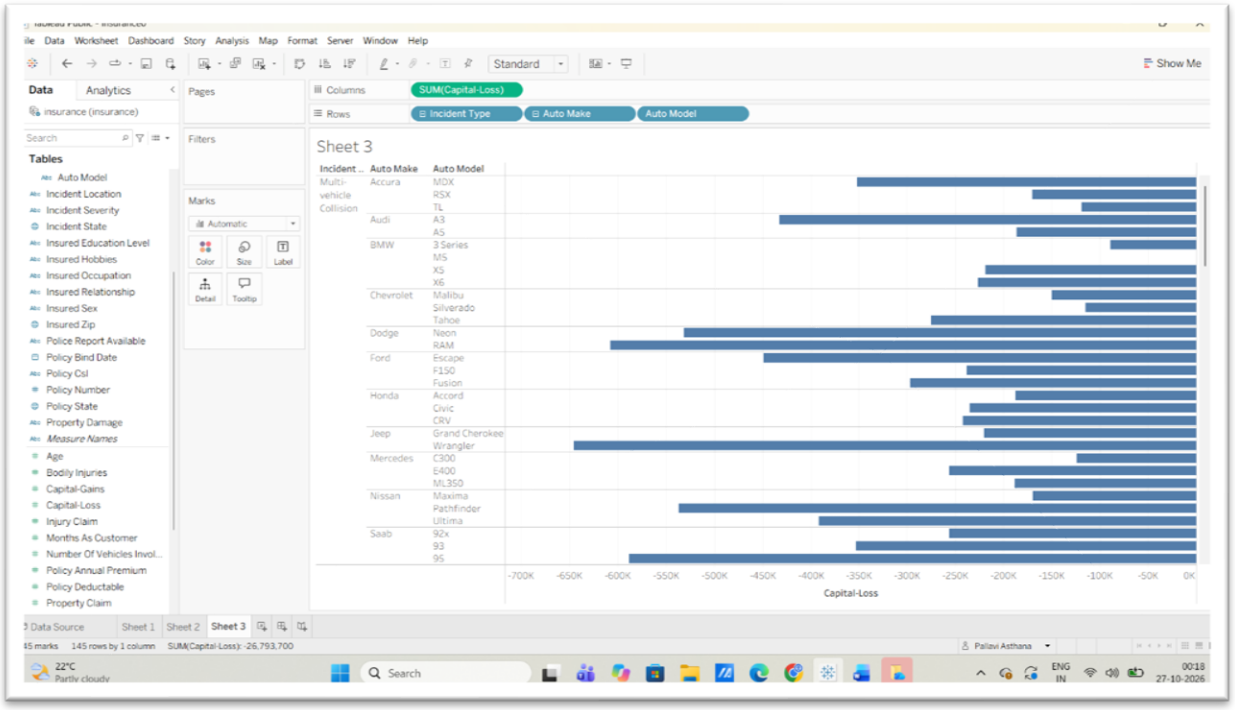

---

3. Create a hierarchy and rename it Incident Info.

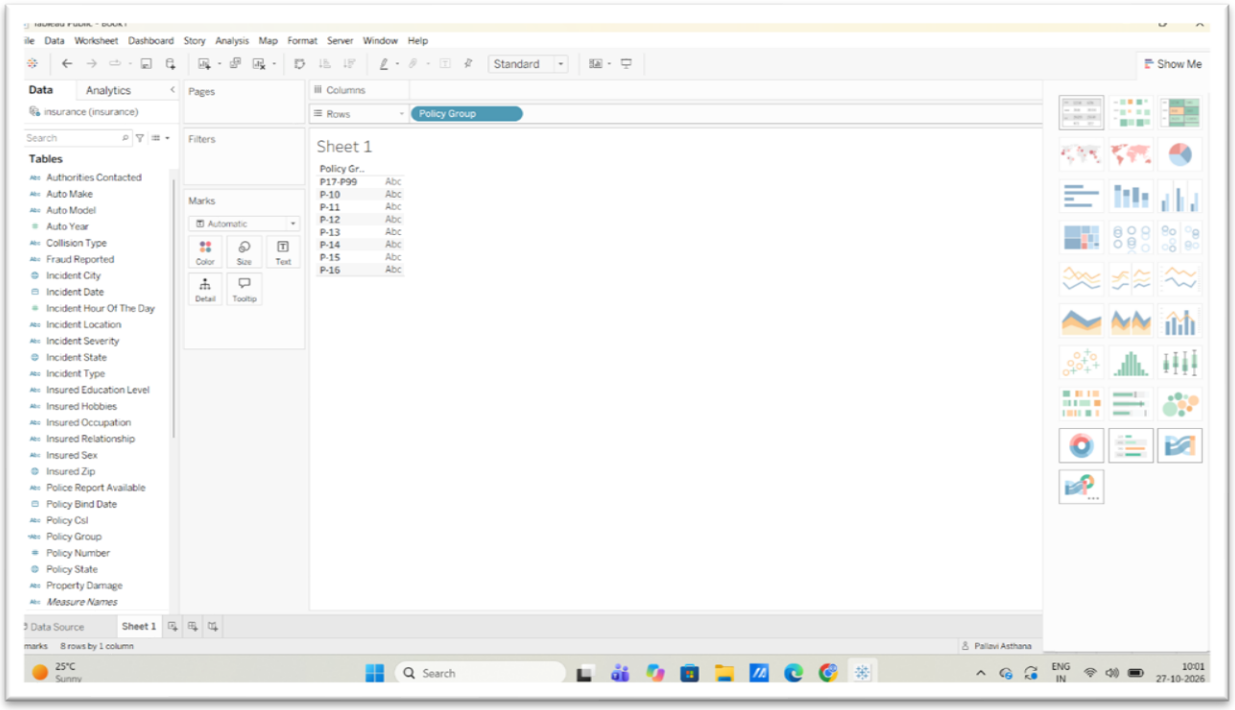

---

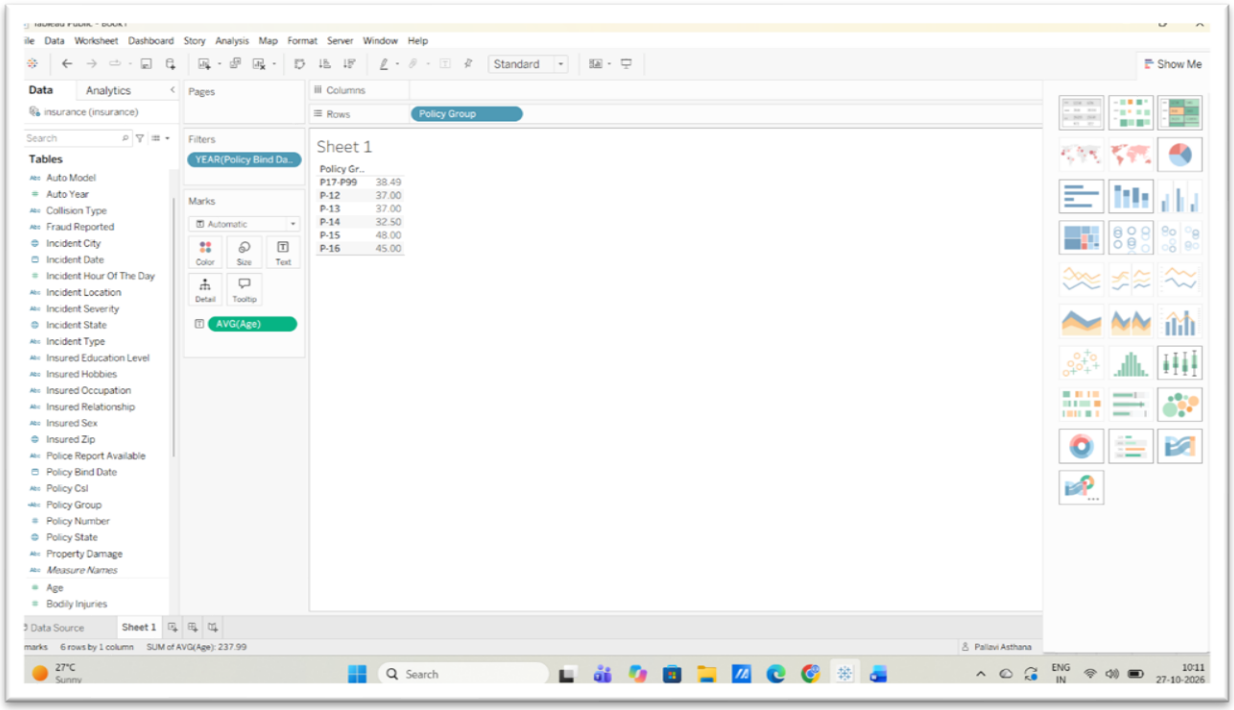

4. Show capital loss for each auto model using the hierarchy.

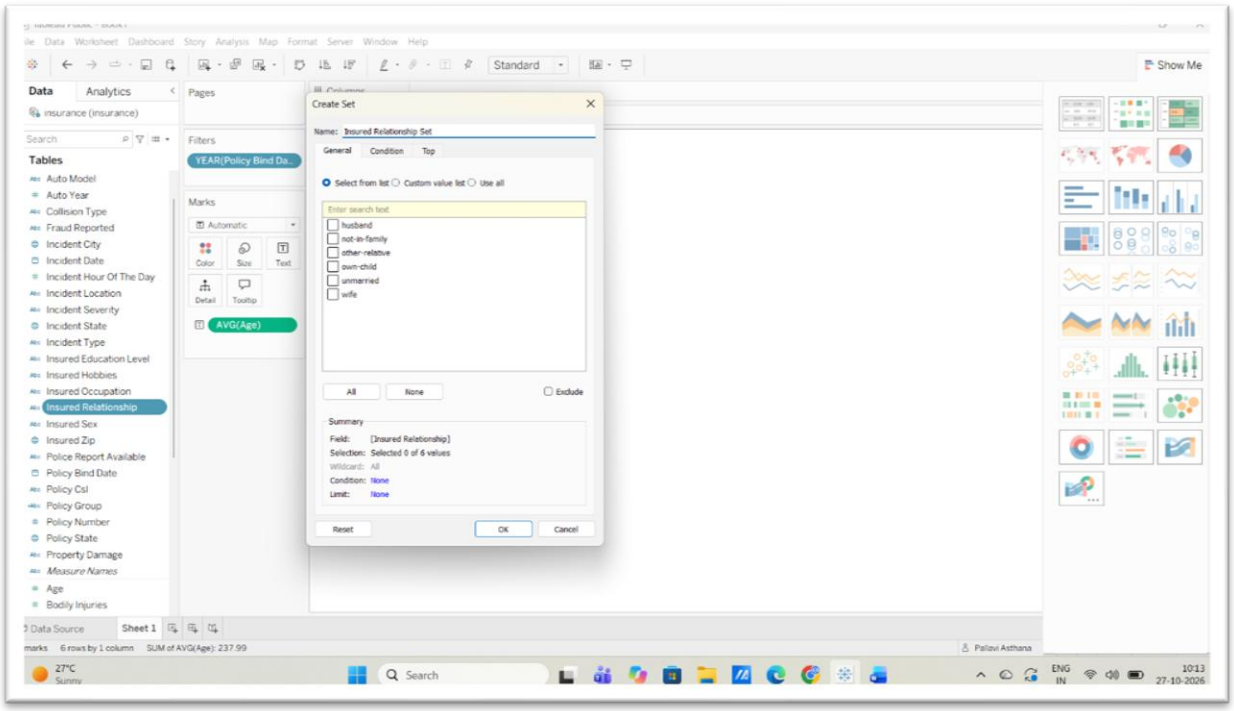

5. Create a group of Policy number: P-10, P-11, P-12, P-13, P-14, P-15, P-16 and P17-P99 for Policy number start with 10,11 so on upto 99.

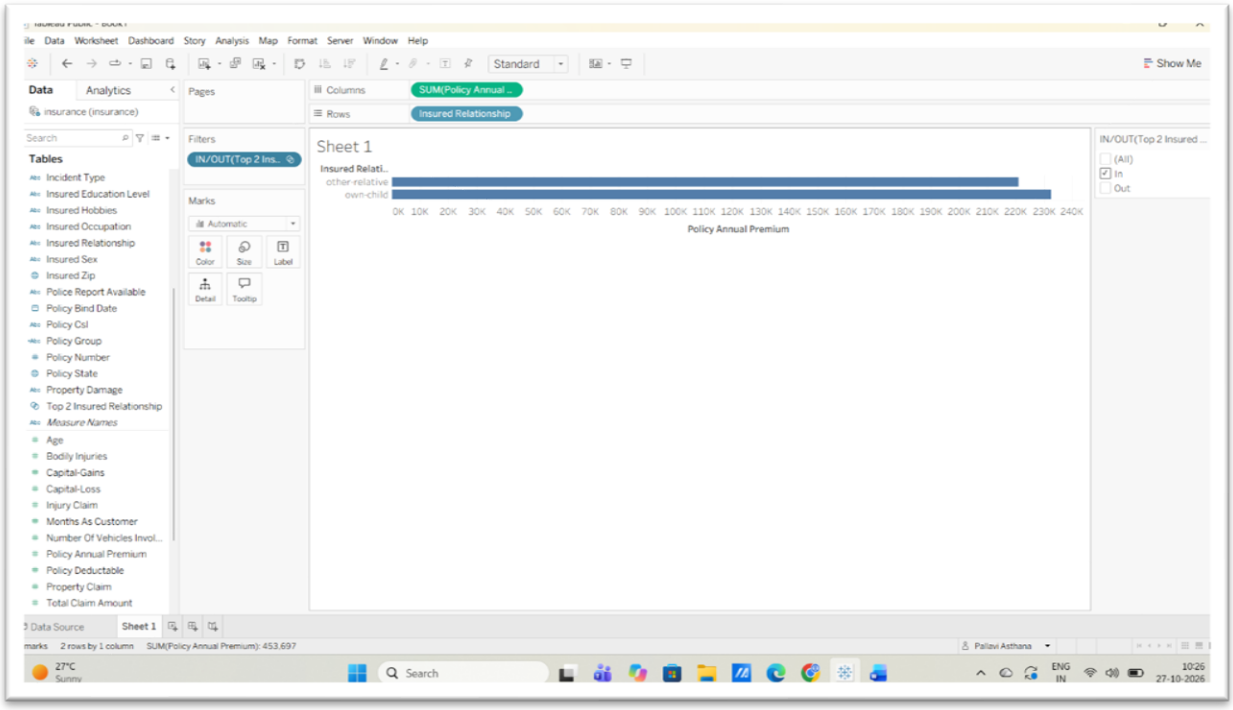

6. Use this created policy group to check average age of customer for Policy bind date 2013, 2014 and 2015 year.

7. Using set on Insured relation, display top 2 policy annual premium amount.
